

## Shredding Testimonials

“During the past several years Protect-N-Shred has been providing on-site shredding of our documents. They are prompt and courteous and we have never had any issues. They have also taken the time to go to a satellite location for a large clean up job for us. The company offers top-notch quality, services and unbeatable rates. Whenever there may be a question or request it is addressed immediately. Across the board, we are pleased with their work and would recommend their services to anyone.”

“I have been a client of Protect-N-Shred for more than 7 years. They have been efficient and professional and given me peace of mind that my sensitive data has been securely and properly destroyed. As a tax preparer I have to be sure that my clients’ personal information is safe at all times. Protect-N-Shred has taken the burden of that concern off my mind. I have a secured container on site and observe the destruction of those documents at my location on their mobile equipment. I would recommend Protect-N-Shred to anyone concerned with the secure destruction of sensitive information whether it’s for yourself or your clients.”

“Protect n Shred has been shredding confidential documents for the Trumbull County Probate Court since 2006. When called by the Court, two Protect-N-Shred employees empty the secure container into a covered toter and transport the toter to their truck parked outside the Courthouse. A court employee then witnesses the documents being shredded in the truck. The employees of Protect-N-Shred are professional and courteous. Confidentiality is their main priority.”

“Protect-N-Shred has been a great business partner the past five years. In my business it is essential that we keep our customer’s information secure. Protect-N-Shred enables us to do this effectively at a low monthly fee. I recommend Protect-N-Shred to all my business colleagues.”

John Campolito  
State Farm Agent

“Service from Protect-N-Shred couldn't be better! Employees are always very friendly and polite. Prices are extremely reasonable and they are always very accommodating to our needs. We would definitely recommend Protect-N-Shred to anyone for either their business or personal shredding needs!!!”

“Protect-N-Shred has been assisting us with destroying our “sensitive” paperwork for several years. It has given us peace-of-mind, knowing that documents containing personal and private information will not get into the wrong hands. The employees are courteous and professional and I have enjoyed working with them.”

“I certainly appreciate the service Protect-N-Shred provides. Our clients’ information is very sensitive and having a secure document shredding service helps in maintaining the privacy of that information. In our practice we had been doing the shredding in house, however, this was time consuming, messy and required us to replace equipment. In the end it wasn’t cost effective or a good use of my teams’ time. The cost to have Protect-N-Shred is well worth it when I consider more productive things my team can be doing with their time, thus making the service more cost effective long term and most importantly having confidence in the appropriate destruction of client sensitive information.”

“Protect-N-Shred has been taking care of Copeland Oaks for many years. Their staff has always responded quickly to any of our needs. Because of the confidentiality of the documents we have to shred we had to pick the right company. You can trust Protect-N-Shred, as we have, to do a great job and properly shred your documents. I would highly recommend them.”
